To secure a reply, persons writing this office, on their own business, should inclose money to prepay the expected answer. We receive many such, which would amount to a considerable daily tax if we replied to them.

Crry Assams .- At the regular meeting of the Common C uncil yesterday afternoon, the Mayor stated that he had sold the steamer "Sligo," belonging to the city, to parties in Labanon for six hundred cords of wood to be delivered at the Water Works of that city will offer the South. He says those which he considers equal to \$1,800. The sale was approved.

The Louisville and Nashville Railroad-Mr. Gutbrie's letter.

Mr. Guthrie publishes a letter this morning relative to the detention of some locomotives belonging to the Louisville and Nashville Raitroad, by the suthorities of Tennessee, within the limits of that

We do not see that the communication of the Press ident of the Road is more than a weak and disingenious attack on Tennessee for the action of her authorities, and a very lame and impotent defense of the policy which, pursued under his instructions, led to the detention of the trains and cars in ques-

He tells us that "the Company have always kept at Nashvills all the motive power and rolling stock required for the business at that place," and then particularizes as to the number of locomotives and cars heretofore left in Tennessee; but he does not deny, in any part of the letter, the explicit statement copied by us yesterday morning from the Nashville Patriot of the 5th, that when the unorning train for Louisville left" on Thursday, "there was not a single locomotive remaining in Nashville, 'and only a few cars.'

From the President's statement, we learn that the whole length of the road and branches is two hundred and eighty-six miles, of which forty-five There are on the road, thirty-seven locomotives:

hundred and sixty box freight cars; and over one hundred flat cars. Tennessee and Tennesseans have \$1,160,500 in stock in the road; and yet, had the cars detained on Thursday been permitted to leave, not one of these locomotives, and but a few of these three hundred cars, would have been left at the Nashville end of

The complaint on the part of Tennessees is, not the business offering there, but that after the manage. to him, -chelbyville Ecrosilor July 10. ment of the road had virtually passed out of the hands of the Directory and gone into those of Lincoln's agents, the rolling stock usually kept there and to which in fairness, they were entitled, was being gradually withmen, and it did not matter to them whether it was being done with or without the consent of the

Seeing that this was being done, and fearing that the rolling stock of the road was being placed where it might and probably would be saized by the agents of the Administration and used to transport men and the munitions of war to invade Tennessee, Gen Anderson called the attention of the Superintendent to the fact, and asked to have a few of the locomotives left at that place; but the resonable request was not complied with because the President could not recognize the right of Gen. Anderson to dictate the operations of the road in that State! being no provision in the charter to the effect that the company should be subject to the military orsiers of Tennessee," says the President, "the order (request?) was not complied with:

The President has nothing to say of the fact, that there is nothing in the charter of the company to subject the road to the control of Mesers. Gailagher. Cotton & Co., into whose bands, as far as its management here is concerned, it had passed before Gen. Anderson made the request which he refused to comply with, and in consequence of which that reonest was made

The President's whole defence of the policy he has pursued, is based on the right of the Directory, under the charter, to control the road as they see proper, which would be well enough but for the fact that the Directory had ceased to control the road, not having the power, and probably as far as the President is concerned lacking the will, to use it for the benefit of the stockholders or the convenience Mr. Gathrie would probably like to have the entire road controlled by the agents of the Presi-

dent, whose orders and inclinations would lead them to withdraw its rolling stock entirely from Tennessee, as was being done, to this end, where it might be used for the aggressive purposes of the Administration But the facts as heretofore stated are not denied

or explained away; and until they are got out of the way, the just fication of the authorities of Tennessee must stand complete.—Louisville Courier,

We have not seen the letter of Mr. GUTHERS, to which the Courier alludes. It is simply necessary to refer to the decision of the Jefferson Circuit Court, reported by telegraph, that the Lancous Government "has the right to stop the road," to show the propriety and the absolute necessity of the action of Gen. ANDERSON.

Southern Hights Meeting.

At a meeting of the citizens of Knoxville, in favor of Southern rights, on Tuesday evening, which was largely attended, the following resolutions was unanimously adopted:

Resolved. That the manner in which His Excellen-Isham G. Harris has discharged the ardnous luties imposed upon him during the last two years, has increased our confidence in his ability and mtegrity, and we cordially recommend him to the people of the State for re-election.

I full and free consultation in regard to candidates for Congressional, Senatorial and Floatorial districts, for the ensuing August election, resulted an the unanimous recommendation of the following

For Provisional Congress: James T. SHIELDS, of Grainger county. For State Senator:

Col. P. M. McCLexo, of Knox county.

For Floater: Jas. W. CHAMBERS, of Sevier county.

Previous to these recommendations, W. C. Kane. Esq , whose name had been previously announced as a candidate for Congress, withdrew, and patriotically expressed his determination to cheerfully support any one who might be recommended by a najority of his fellow-citizens.

The gentlemen recommended by this meeting are all able and zealous advocates of the cause of the South, and we hope will be acceptable to the Southern rights voters of the respective districts. We shall place their names at the head of our columns! and advocate their election .- Knowville Register,

An Alexandria correspondent of a New York paper says: "While sitting near the window of the Telegraph office, writing, a young and pretty woman walked past and flaunted a secession flag in my face. I asked her for it, when she referred me makes the following striking and truthful reference t) the Mannassas Junction if I desired one, as there to this eminent citizen, who is now at the head of were plenty just like it at that point."

will doubtless be surprised to learn that quite a all time to come. Contrast him with the usurper number of Illinoisans are in camp near this place for the purpose of joining the Confederate Army.

Captain Bradshaw, who is their leader, assures us

Do NOT NEGLECT TO INSURE.—The that his force will be increased to a full company so soon as men in Illinois, who are engaged in his enterprise, can clude the vigilance of the Federal past should not ball our citizens into a state of "cor authorities. The captain is a boid and determined scious security," for there is no telling at who man, and he and his men unable to get boats, crossed the Ohlo river on logs. These spirited fellows are comfortably located and provided for, and are attracting a good deal of attention. They are ready and anxious to strike heavy blows against Lincoln and his usurpations, and only desire an opportunity Jeffersonian, July 9.

From the Washington Ster of Saturday evening, the 6th inst., we copy the following characteristic feat of the Zonaves from New York, the Ellsworth

puts. This affair was not telegraphed: Form P. M.—We stop the press to say that the Elisworth Zouaves, and other soldiers, have just taken vengesnes after the most summary sort upon the house of lil-fame on Main Avenue, where their coursde was murdered last night. At the examisend them to market, where you can realize three | nation to-day no evidence could be elicited from the occupants of the house as to who the murder was committed by, and the Zonaves believing there was an intentional suppression of the evidence seemed to have become so infuriated, that in company with other coldiers, who sympathized with ther proceeded to "rack the shanty," and afterwards set fire to the building. The fire communicated to the adjoining house of ill fame, kept by Sue Prince, and all three were soon wrapt in flames.

The soldiers meantime refused to allow any per

sons to interfere to put out the flames but exerted themselves to some extent to prevent the fire from extending to the adjoining buildings. Capt. Goddard and the police force were speedily on the ground but could do little towards suppressing the nob of infurtated soldiers. About Sop m, however, the sudden appearance of a body of U. S. cavalry, (Company H. Second Regiment, Lieut Ash.) changed the aspect of things The cavalry with sabres drawn, dashed through Maine avenue, scattering the mob right and left, and at the time of writing this, have encircled the soldiers, and are making arrests on all sides.

The Man for the Times.

We have in this issue of our paper, as will be seen, placed the name of Isham G. Harris at our masthead for Governor We do this knowing that it no less reflects the will of the people of Bedford, than it meets with our individual approbation.

True, we have differed heretofore with Gov. Harris in politics, but these differences have ceased to exist owing to the critical condition of our country His manly and bold resistance to the usurping power twenty two passenger cars; nine baggage cars; one of an abolition government-in refusing to obey the call of Lincoln for volunteers-and his firm and unswerving devotion to the South and her interests. are, togeth r with his experience and capacity to ably represent us in the present emergency, some of the reasons why we are for him.

We call upon old Bedford to come out again as one man, and by their votes show to the world that gailant and chivalrous Tennessee is not only proud of her chief executive. but willing to endorse his that heretofore they have not had cars enough to do | acts-which will give glory to her and immortality

> THE PROPLE RIGHT .- A few tory leaders of Knoxville and King Nelson are about to be left alone in their glory, as the only followers of Andy Johnson, and advocates of his intamous plan to intr duce Lincoln's army of hireling mercenaries into East Tennessee and inaugurate civil war among us. The people everywhere are denouncing the Greene ville Convention. They are not for separating the tate, because Andy Johnson and a few of his followers are fired with a hellish ambition to rule or ruin their section of country. This crazy scheme finds no friends among those of common sense We hear from every county, that those who voted against Separation are going to abide by the will of the majority, and they are much more ardent against rebellion and a separation of the State than they were against a separation from the Federal Government. The Greeneville Convention and the host of falsehoods that emanated from it, have opened the r eves to the deception that has been practiced upon them. As an evidence of this, many of the young nen who voted for Union, are now volunteering to fight Lincoln's mercenaries if it be necessary; and we venture the assertion to two-thirds of those who voted for Union will be found in the same ranks, if the day of trial should come. They want no war at home, among neighbors and friends, brother against brother father against son—and will have

none. - Knozville Register, July 9. VERY BRAVE!-A correspondent of the Columbus Times, writing from Sewail's Point, under date of June 19, says that on the day before, acting Lieut. Col Lomax, of the Alabama Regiment was attending Miss E. and a company of ladies and gentlemen along the beach at Sewall's Point Eattery, and when they had approached as near as they con the Rip Raps, and stopped to make observation, a shot from "Sawyer's American cannon" was simed, deliberetely, at them, which fell in the water, some 50 vards short, but in a direct line with the group.

The New Orleans Bulletin says the Miss E. alluded to is Miss Evans, of Mobile, a relative of Colonel Lower, and the gifted authoress of "Beulah." The from the party.

A VERY OLD YOUNG MAN.-Col. Hartford, Cap. tain of the Leatherwood Invincibles, a company of Henry volunteers, is now sixty-two or sixty-three years of age, but too much of a young man not to have a shot at the Yankees. He boasts that he can outrun any man wi hin ten years of his age to bu found in the army, and is perfectly assured in his own mind that he can catch a live Tankes! In this, we think the veteran captain is mistaken. Thus far they have made better time in that line, than he ever made in his youth .- Danville (Va.) Register.

Basis of a Frances.-From the first day's proceedings of Lincoin's Congress we see his friends propose to alleviate Lincoln's perjuries by committing perjury themselves. We are reminded of the incident in the history of a celebrated British statesman and wit, who, reeling nome in a state of not unusual obfuscation espied an acquaintance, more overcome than himself, lying in the gutter, and comforted him by saying that he could not help him up, but he would get down in the gutter and lie with him.—Richmond Whig.

CHASE RECOMMENDING CONFISCATION .- The Trepressibles are not only bent on subduing the South, crushing out freedom of person and speech but to rob all who even sympathize with their Southern brothren, as will be seen by the following suggestion from Chase, of Ohio, the Secretary of the Trea-

It will not, perhaps, he thought out of place if the Secretary suggests here that the property of those engaged in insurrection or in giving aid and comfort to the insurgents may properly be made to contribute to the expenditures made necessary by their criminal misconduct as a part of the punish ment due to the guilt of involving the nation in the calamities of civil war, and thereby bringing dis trees upon so many innocent persons. Congress may justly provide for the forfeiture of the whole or part of the estates of the offenders and for the payment of its proceeds into the public treasury.

On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO ENOW," after ten pears experience, and pledge our repulation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fitteen or twenty minutes after the syrup is administered. This valuable preparation is the prescription of one of the most experienced and skillful Burses in New England, has been used with never fulling success in

THOUSANDS OF CASES. It not only relieve the child from pain, but invigoraice stomach and bowels, corrects addity, and gives tone and energy to the whole system. It will almost instantly relieve Griping in the Bowels and Wind Colic, and overcome convulsors, which, if not speedily remedied, end in death. We believe it the best and sweets remedy in the world, in all cases of Dysentery and Diarrhood in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of schere, stand between you and your suffering child, and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used Full directions for using will secompany each bottle. Is processly what its name indicates, fer, while pleasant to the taste, it is revivitying, exhilarating, and strengthening to the vital powers. It also revivites, relatates and renews the blood in all its original parity, and thus restores and renders the system invaluentable to attacks of disease. It is the only preparation over offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined so as to be the most power ful tonic, and yet so perfectly adapted to all all as to all and tone up the digestive organs, and allay all norwers and tone up the digestive organs, and allay all norwers and other irritation. It is also perfectly exhilirating to its effects, and yet is never followed by institude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soething properties and consequently can severialize. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly sailled in medical science, and also by all who have su cred from debility; for it needs no needical skill or knowledge even to see that sixtility follows all attacks of disease, and lays the anguarded system open to the attacks of many of the most chargerous to which poor humanity is censually liable.
